

### **Patent claims**

1. Product comprising a combination of a macrocyclic lactone and an amidine.
2. Product according to Claim 1 for the simultaneous, separate or successive use against parasites on animals.
3. Product according to Claim 1 or 2 comprising, as macrocyclic lactone, abamectin.
4. Product according to any of the preceding claims comprising, as amidine, amitraz and/or cymiazole.
5. Product according to any of the preceding claims comprising abamectin and cymiazole.
6. Product according to any of the preceding claims for use on productive livestock.
7. Product according to any of the preceding claims for use on cattle.
8. Product according to any of the preceding claims for application onto the coat of the animals.
9. Product according to any of the preceding claims for application as a spot-on or pour-on.
10. Product according to any of the preceding claims for application as a spot-on or pour-on after dilution with water.
11. Use of macrocyclic lactones and amidines for preparing products for controlling parasites on animals.
12. Use according to Claim 11 for preparing products for the simultaneous, separate or successive use against parasites on animals.
13. Method for controlling parasites on animals, which method comprises applying to the animal an effective amount of macrocyclic lactone in combination with an effective amount of amidine.
